1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 13-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

On lines 7-8 of independent claim 13, in the phrase, "each bistatic pair of a transmitter and a receiver placed at different points" is indefinite and unclear in that it seems to state that each bistatic pair is at a plurality of points, namely at "different points." Further, it is unclear on lines 7-8 of independent claim 13 if the "different points" are the same as the "known points" of line 6 of claim 13.

On lines 7-8 of independent claim 19, in the phrase, "each bistatic pair of a transmitter and a receiver placed at different points" is indefinite and unclear in that it seems to state that each bistatic pair is at a plurality of points, namely at "different points." Further, it is unclear on lines 7-8 of independent claim 19 if the "different points" are the same as the "known points" of line 6 of claim 19.

Dependent claims 14-18 are unclear at least in that they depend from unclear independent claim 13.

Dependent claims 20-24 are unclear at least in that they depend from unclear independent claim 19.

3. Claims 13 and 19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. Claims 14-18 and 20-24 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
